

Supporting Our Landlords

Landlords play an integral role in the provision of safe and affordable housing and maintaining successful tenancies.

How Can We Help?

Housing Help Centre offers comprehensive Landlord Support Services designed to help strengthen tenancies. The program can link landlords to the community resources and supports they need to maintain tenancies.

Our Strategies:

- Educate & advise landlords on their rights & responsibilities;
- Link landlords with funding, resources and support services to help support at risk tenancies including the Housing First program;
- Increase awareness of rent supplement incentives to increase the stock of safe and affordable units in Hamilton;
- Assist landlords to network and liaise with community and governmental social services, enforcement and housing agencies;
- Strengthen cooperation & communication between landlords and tenants;
- Promote free listing services to link landlords and tenants;
- Link landlords to bed bug support programs.
